PRINTING TIP: This title has been designed to print on 8.5"x11"-sized paper. If you are printing on a different size, select "shrink to printable area" or "print to fit page" (or a similar option) in order for the contents of this products to print properly.

Click anywhere on this page to go to the resource unit on my blog.

This resource unit contains everything you will need to complete a unit about frogs. This file has all the printable pages that go along with the resources I've gathered and added to my blog.

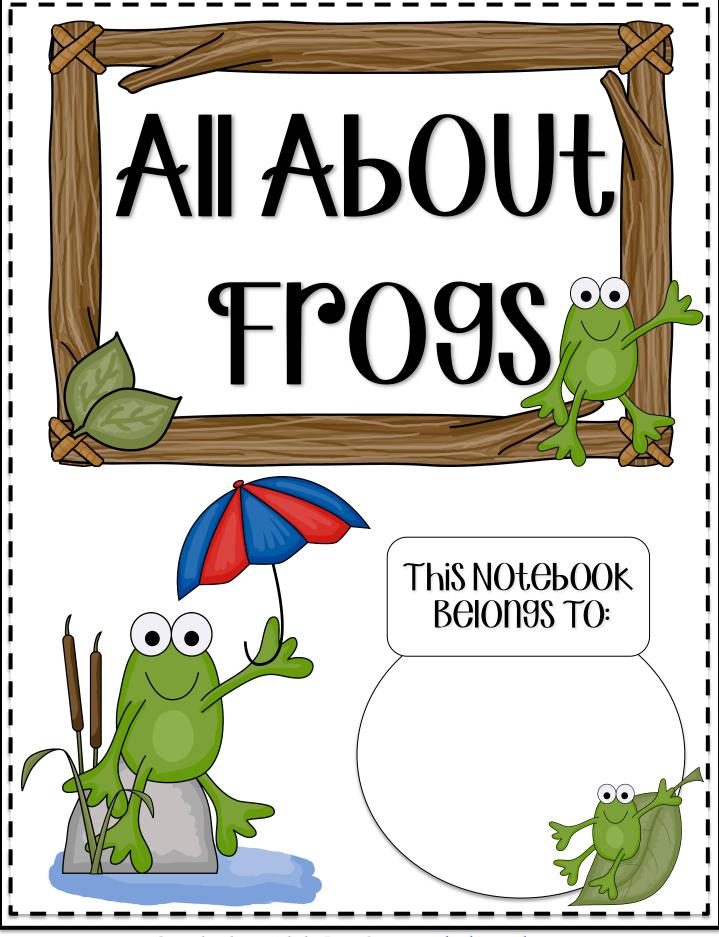

When creating this unit I had homeschooling families in mind. With that said, there are pages included in this file for older and younger students. Some of the resources I've included have a website for older students and one for younger students. There are also pages with primary-lined pages and with basic-lined pages.

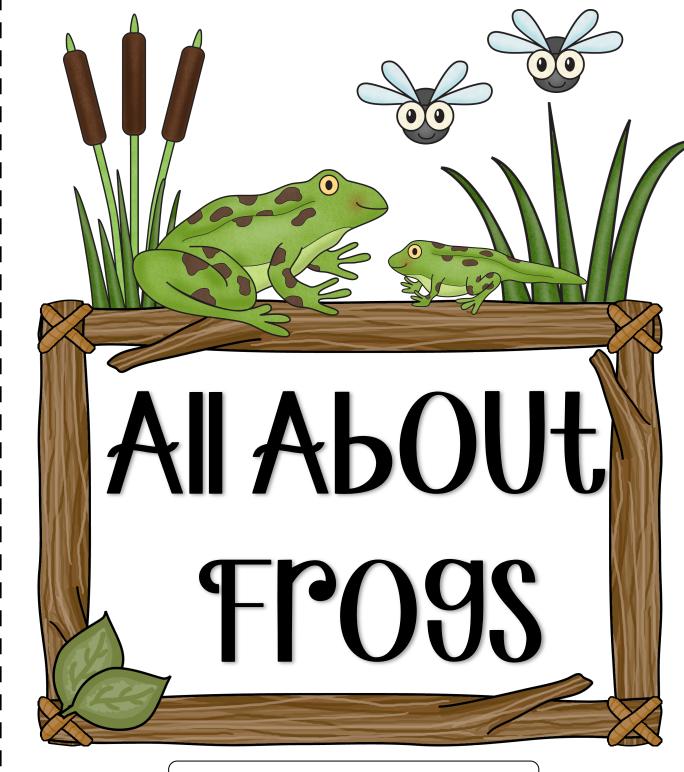

At the end of this file are large mini-books and life-cycle charts that can be used during your study.

I hope this unit works well for your family or class. If you find this resource valuable to you, please consider rating it at the shop you downloaded it from.

Thanks for downloading and enjoy,

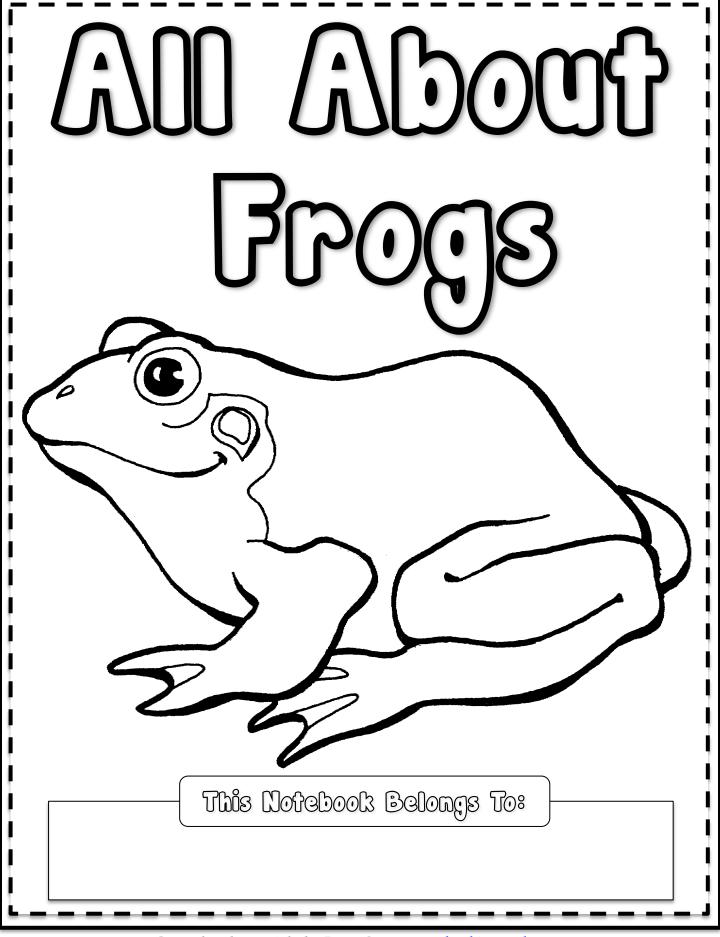

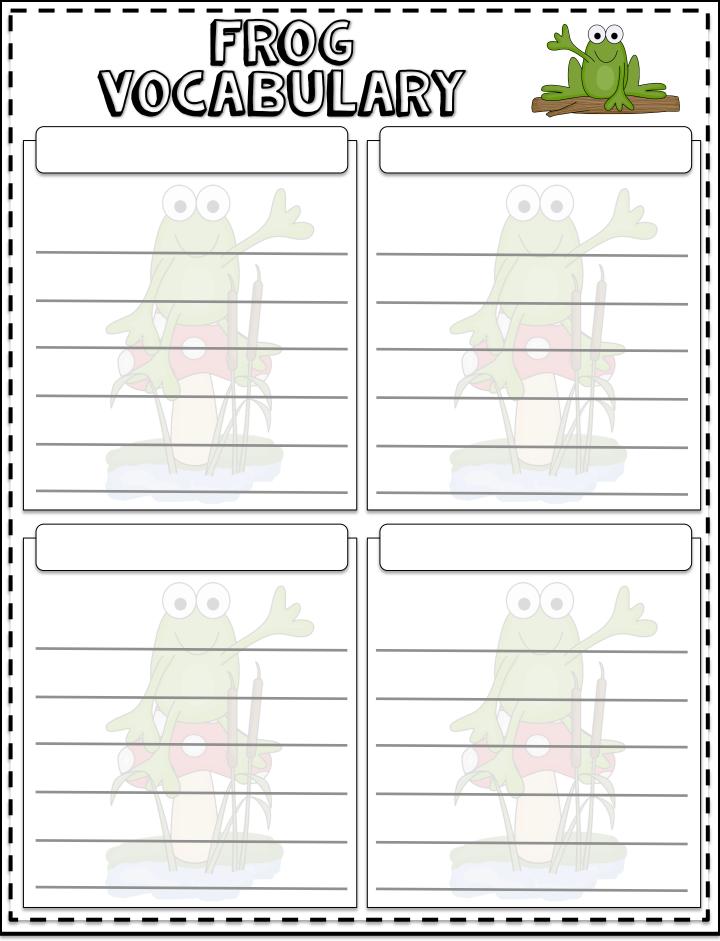

This Notebook Belongs To:

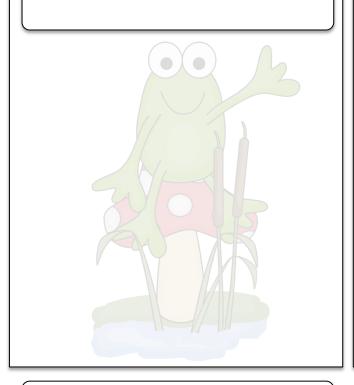

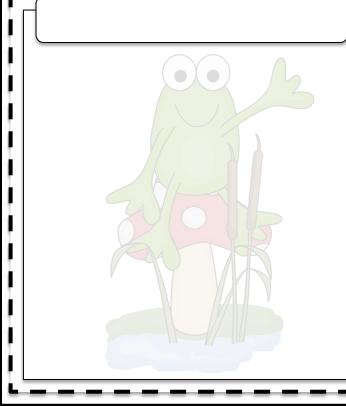

FROG VOCABULARY

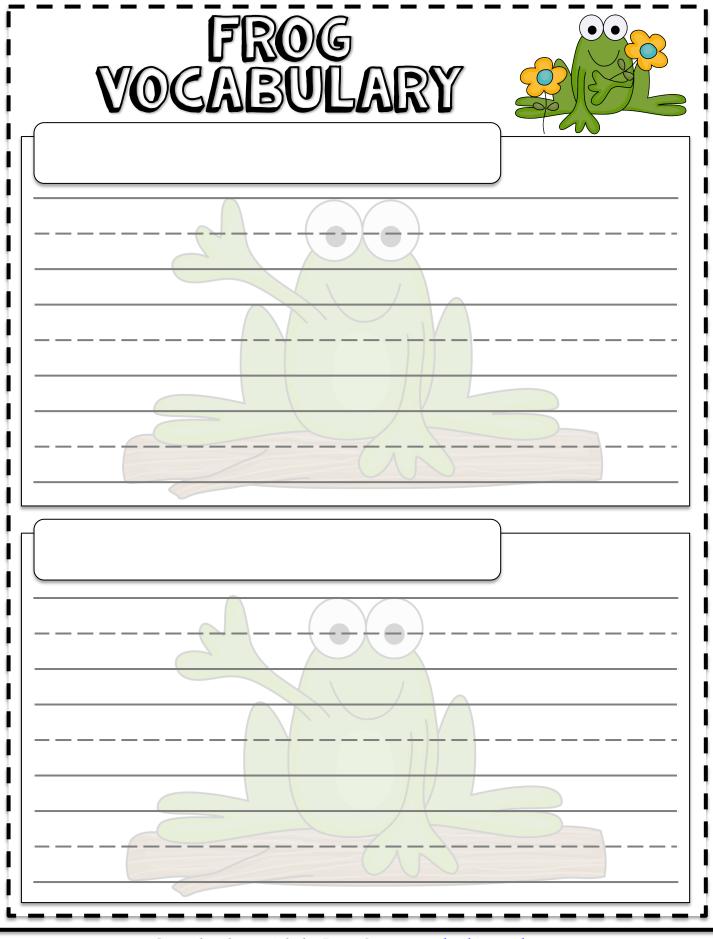

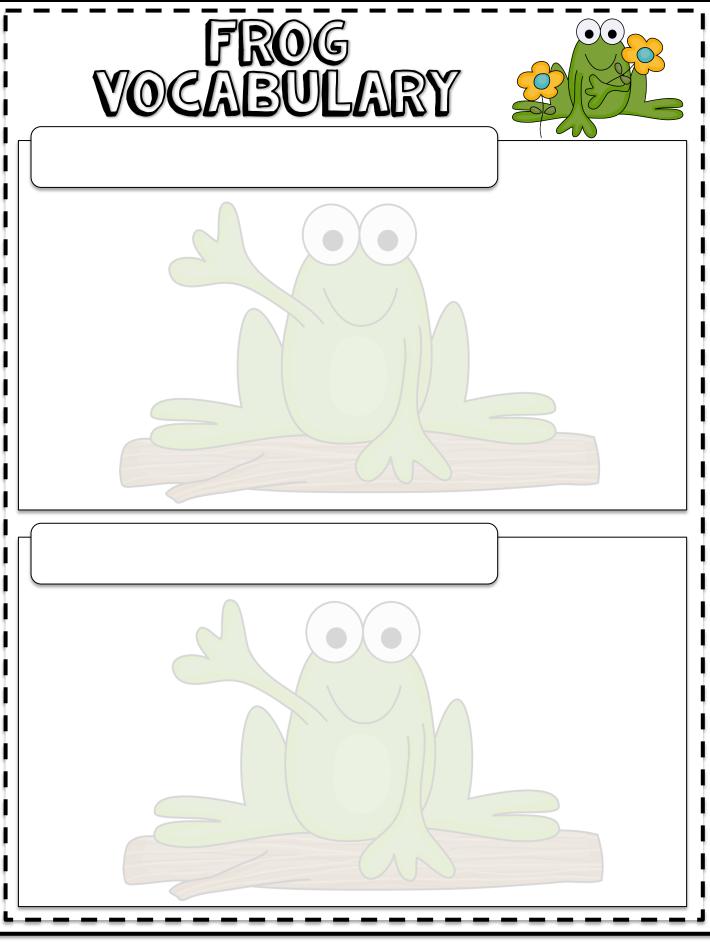

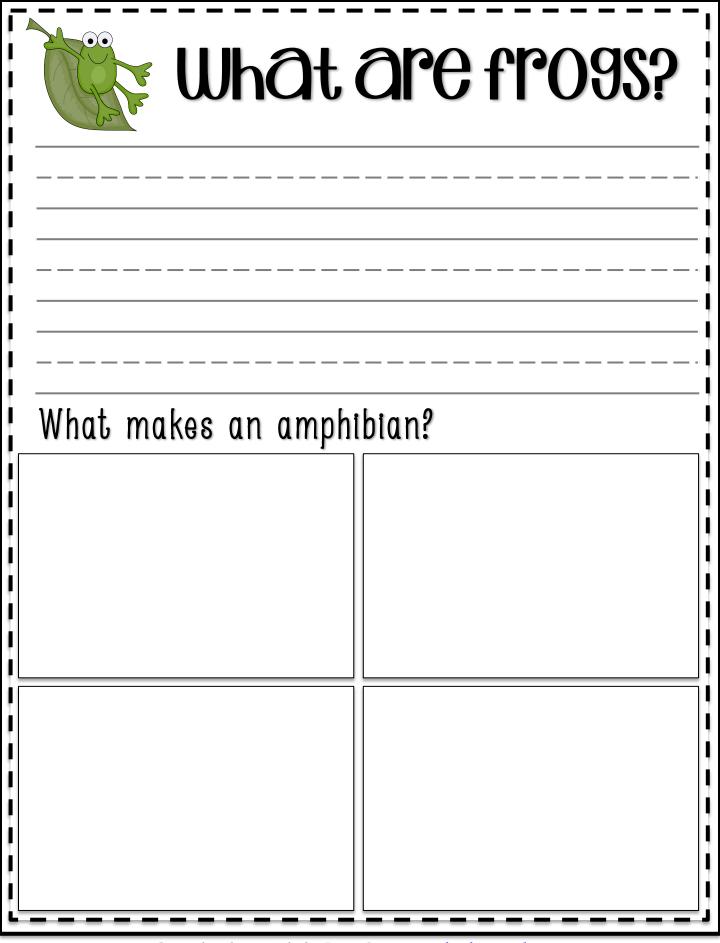

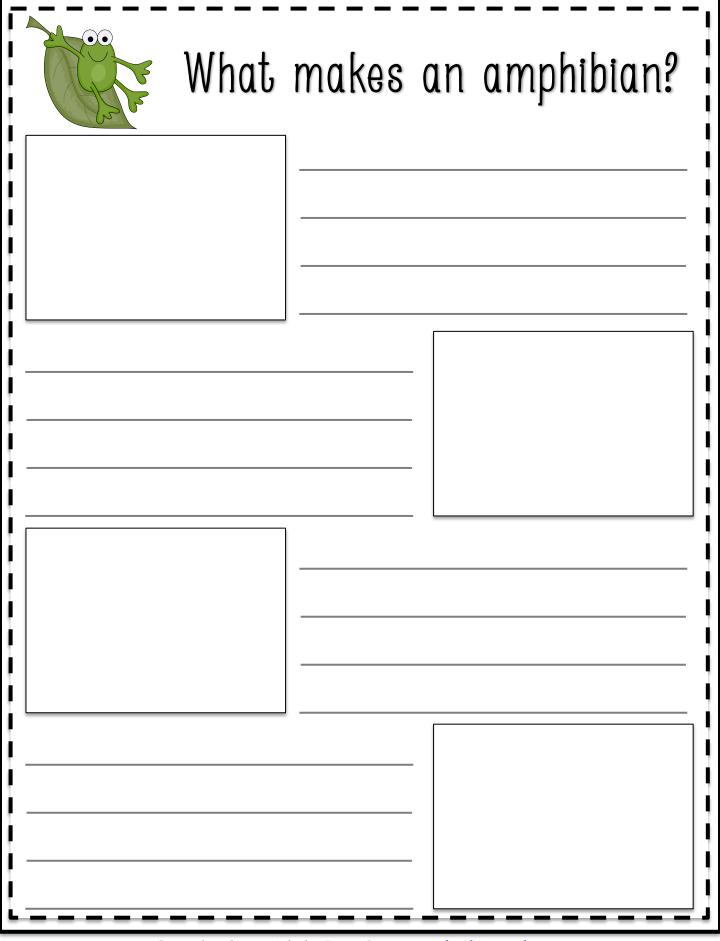

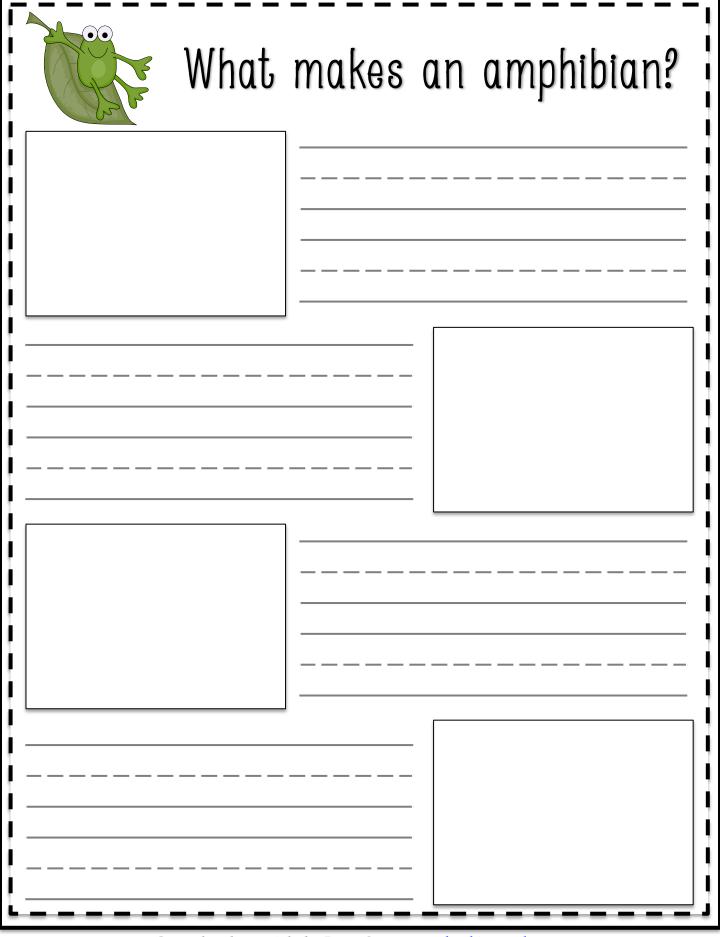

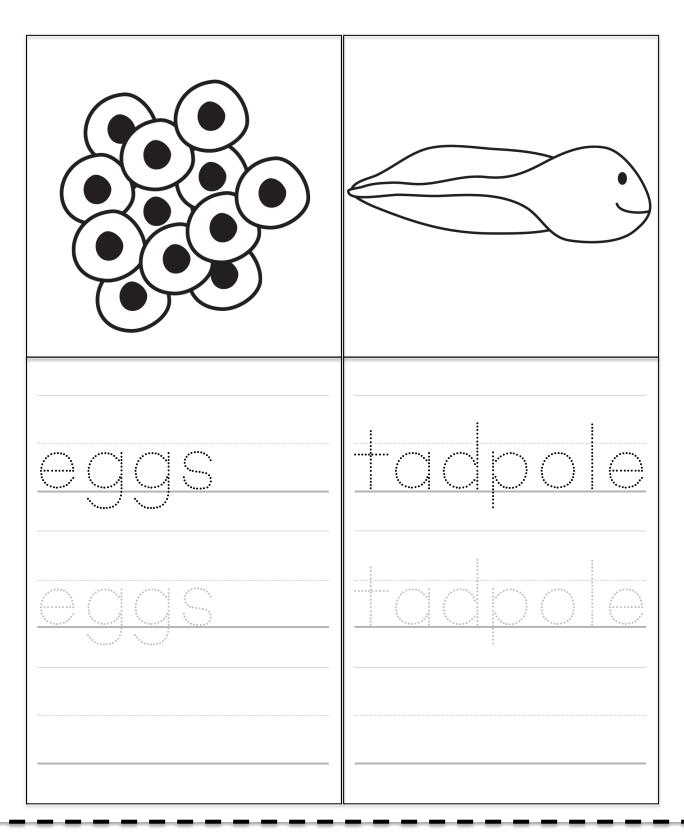

What are frogs?

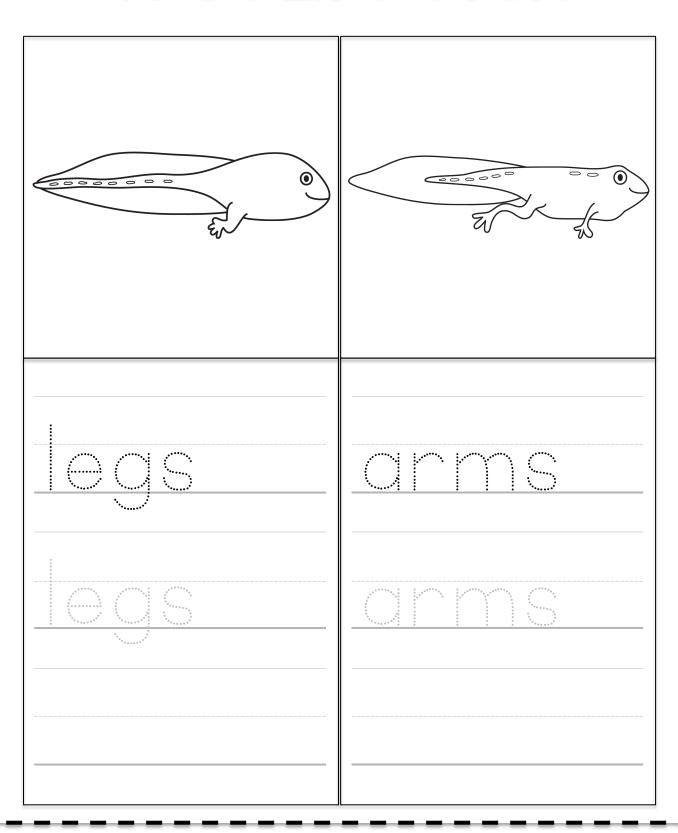

What makes an amph	ibian?

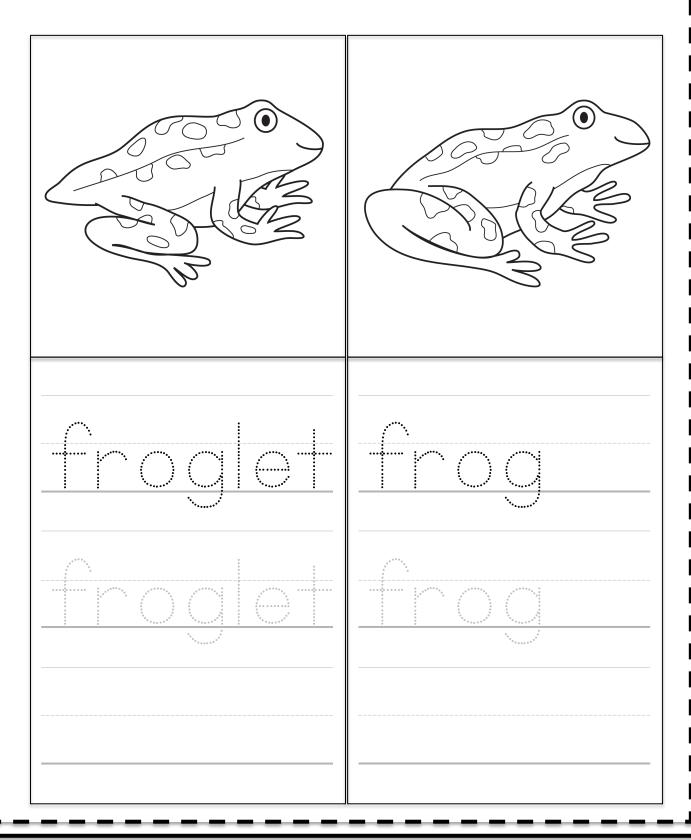

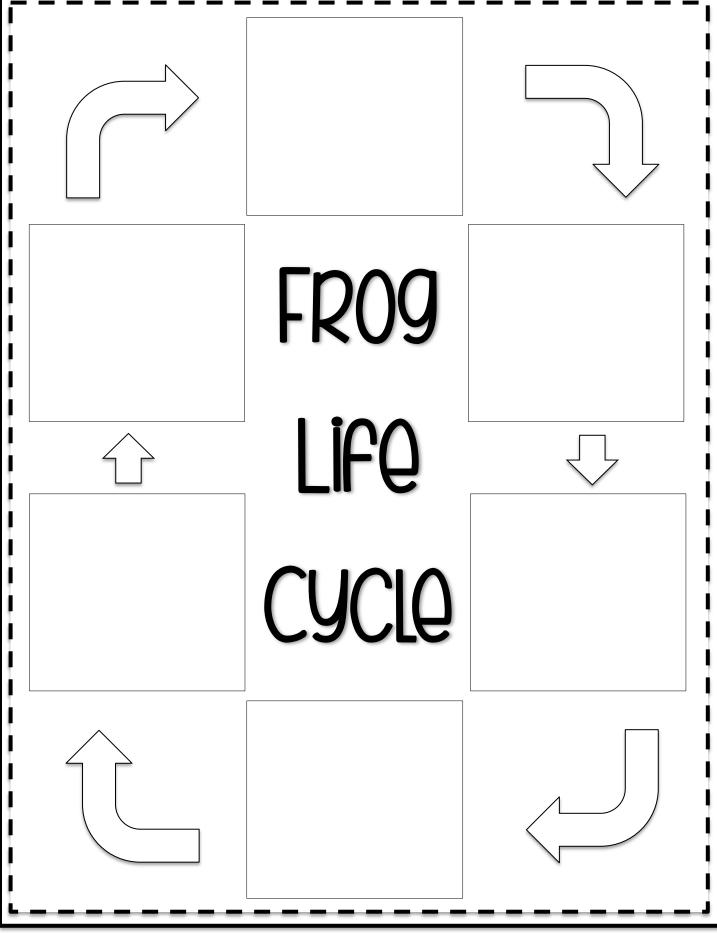

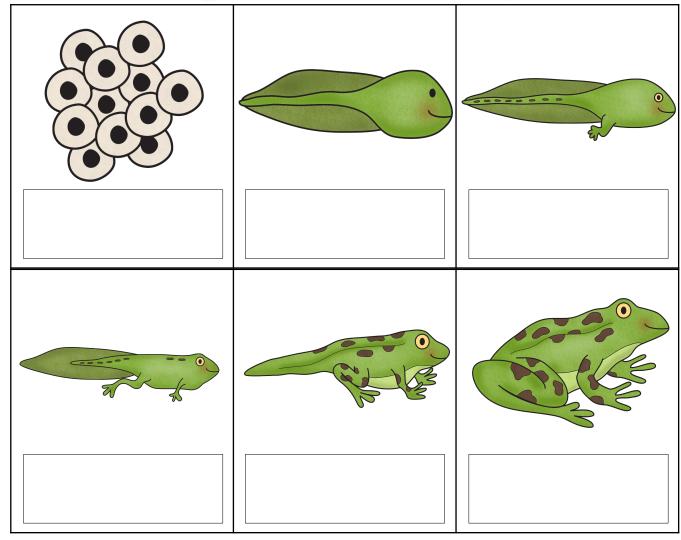

Optional: Add matchbooks to boxes in page above or cut out images and glue to squares.
